

## RESEARCH STUDY

# Human-AI ICS Cybersecurity Challenge

*Put your cybersecurity skills to the test in a hands-on Industrial Control Systems (ICS) Capture-the-Flag (CTF) challenge.*

*Explore realistic ICS security scenarios, experiment with cutting-edge AI tools, and tackle cybersecurity challenges inspired by critical infrastructure environments through a research study coordinated by Nemesys Insights.*

### Who can participate?

- Cybersecurity professionals, students, ICS/OT practitioners, and individuals interested in cybersecurity.
- All those with cybersecurity experience are welcome.

### More information

- Participant compensation of US\$400
- Full-day participation required
- 1 day slots available on:
  - Friday, July 24; Saturday, July 25; Friday, July 31; or Saturday, August 1

Or click [HERE](#) to register your interest

*Space is limited. Complete the participant qualification form to determine your eligibility and secure your spot. For additional questions, please contact the **Project Team** at [research@nemesysinsights.com](mailto:research@nemesysinsights.com)*
